Furniture

It takes a very special ingredient to convert Science into Art and Art into Style that will create memories to last a lifetime; this very rare ingredient is called "passion" and we use it in abundance; it is the secret I've learnt from my grandfather.

After three generations of wood crafting I've learnt that even the most advanced technologies and accessories have to serve only one purpose: to reveal the inner soul of the wood, Nature's precious creation taken in its very best form, powerful and gentle, warm and refreshing, timeless and ever changing.

Good life from day One !

A handwritten signature in black ink, appearing to be 'Jup' or similar, with a long horizontal line extending to the right.
